

**Stefano Cortellini, DMV, MVetMed, DipACVECC, DipECVECC, FHEA, MRCVS
Royal Veterinary College, North Mymms, Hatfield, United Kingdom**

Stefano graduated at the University of Perugia (Italy) in 2006 and following one year internship at two private referral centers in Rome and another year working in the intensive care at the Veterinary Center Gregorio VII, he decided to relocate in the UK to pursue further training. In 2010 he completed a rotating internship at the Animal Health Trust and following a residency at the Royal Veterinary College in Emergency and Critical Care, Stefano became a member of the American and the European College of Veterinary Emergency and Critical Care Colleges. Stefano is currently member of the Emergency and Critical Care Faculty team at the RVC as Senior Lecturer and enjoys every single aspect of emergency and critical care medicine, but is particularly focused on clinical management and research of sepsis, trauma and AKI, including use of renal replacement therapy. Stefano is currently co-director of the extracorporeal therapy unit at the RVC.
