

Dr. Tom Greensmith

BVetMed MVetMed DipACVECC DipECVECC FHEA MRCVS RCVS Recognised Specialist in Emergency and Critical Care

University of London, Royal Veterinary College, Department of Clinical Science and Services, Hawkshead Lane, Hatfield, Hertfordshire, United Kingdom

Tom is Senior Lecturer in Emergency and Critical Care at the Royal Veterinary College in London, having completed his residency at the RVC and becoming a diplomate of the American College of Veterinary Emergency and Critical Care in 2018. He became a diplomate of the European College of Veterinary Emergency and Critical Care in 2021, and gained his RCVS Recognised Specialist and FHEA statuses in the same year. Tom was the clinical lead for post-operative cardiothoracic critical care from 2018-2024 and has extensive experience of the care of such patients, as well as being able to provide clinical perfusion services for patients under cardiopulmonary bypass. His clinical interests include extracorporeal therapies, including dialysis and therapeutic plasma exchange, mechanical ventilation and antimicrobial stewardship.
