

Søren Boysen
DVM, DACVECC

Søren obtained his DVM from the Western College of Veterinary Medicine (WCVM) in Canada, completed an internship at the Atlantic Veterinary College (AVC) in Canada, and a Residency in Small Animal Emergency and Critical Care at Tufts University in Massachusetts. He became a Diplomate of the American College of Veterinary Emergency and Critical Care (ACVECC) in 2003.

Former chief of veterinary ECC at the University of Montreal (2003-2008) he helped establish veterinary ECC in the province of Quebec. In January 2009 Søren accepted a position at the University of Calgary to help with curriculum development for the newly formed college of Veterinary Medicine, where he is currently employed as a Full Professor in Small Animal Emergency and Critical Care. A recipient of numerous teaching, research, and speaker excellence awards, he has become an internationally recognized educator.

A founding member of the veterinary emergency and critical care ultrasound (VECCUS) working group he continues the promotion and education of veterinary ECC and point-of-care ultrasound (POCUS) globally through his numerous contributions to research, book chapters, journal publications, and work with various ACVECC, ECVECC, VECCS, ECVECC, and VetCOT committees. Along with POCUS, his research interests include veterinary education/simulation, hemorrhage, coagulation, resuscitation, and perfusion.
